Robinia

vinci
play

A group of children are playing on a rope climbing structure outdoors. The central child, a young girl with dark curly hair, is smiling and looking to the side while holding onto a thick rope. To her right, another girl with blonde hair and a blue headband is also smiling and holding the rope. On the left, a third girl with long blonde hair is partially visible, also smiling. The background is a blurred outdoor setting with trees and a sandy ground. The text "Fun, naturally" is overlaid in white, bold, sans-serif font. There are yellow decorative elements: a large circle in the top right and three curved shapes in the bottom right.

**Fun,
naturally**

About us

Vinci Play is a Company which brings happiness to children all around the world.

We design, manufacture, and install fully safe, aesthetically pleasing, and extremely attractive playgrounds. We opt for beautiful and imaginative designs which stimulate the child's unbridled curiosity, while encouraging kids to have fun together. Nearly 80 million girls and boys are playing joyfully on Vinci Play devices in over 50 countries around the globe. Such a vast number of parents have placed their trust in us because every day we strive to give children what they need so much – some carefree fun in a safe and friendly environment, while our customers can enjoy extremely durable, top-quality equipment covered by an unrivalled 30-year warranty. Our professional attitude makes us a reliable business partner for those companies and institutions which are looking for an accomplished playground manufacturer.

We operate globally, seeking the very best solutions on a daily basis. However, we never lose sight of what is the most important – namely, the human dimension of our work. What drives us in all of that is our passion to witness children's joy in a safe, inspiring and fabulously colourful environment.

What makes us unique

Advanced production processes

From the design, through production, all the way to shipping, the highest quality and safety of the playground are our priorities at every step of the way. In the production process, we implement only certified materials, and the multi-stage quality control system ensures that all equipment components that leave our production line meet stringent safety norms. We employ top specialists in their field who ensure a high standard of our products, reliable customer service and professional maintenance

service of the equipment. Our modern machine park and advanced production organisation facilitate 4-week order processing. We also offer products with a 7 and 14-days production time and goods that are available directly from the warehouse.

We are proud to offer children, their parents and guardians the guarantee of carefree fun and relaxation on the playground, thanks to the strict safety procedures and quality standards implemented within our company.

Customer service

Our Customer Service department operates guided by the highest standards of cooperation, confirmed by the ISO 9001: 2015 certificate. The employees of this department endeavour to respond to inquiries addressed to the company within the shortest time possible while meeting the expectations of even the most demanding buyers. We guarantee cooperation based on the understanding of the customer's needs and offer full support at every stage of the contract execution, during the warranty period and afterwards.

Care for the environment

Care for the natural environment constitutes a vital aspect of our business activities. FSC® certificate number RINA-COC-000904: (licence number FSC® C163573) confirms the use of materials from properly managed FSC certified forests and other controlled sources. We follow the principles of sustainable development in all our undertakings, including the selection of contractors and suppliers. We hold the ISO 14001: 2015 certificate, which confirms the implementation of an environmental-management system.

3D Planner

Design your playground!

Design a functional and safe playground with the 3D Planner application. Thanks to this user-friendly app you will be able to create several versions of the playground and choose the one you like the best in just 5 minutes. Upload a photo of the space you have at your disposal and fill it up with Vinci Play equipment. See what your new playground will look like in the morning, in the evening and during different seasons of the year. You will be able to export the created visualizations to .jpg/.png or .pdf files. Our 3D application will calculate the area needed for the installation of the Vinci Play equipment based on their safety zones, so that your modern playground can meet all the requirements of the EN 1176 standard.

For more information on the app's functionalities, please visit our website at www.vinci-play.com

Guarantee

The highest quality of our products is ensured by experienced specialists and high-quality materials. That is why we can offer our customers a long-term guarantee of fault-free and fully safe use of our devices. We also provide post-warranty services. Orders for most spare parts are completed within 48 hours.

Selected guarantee periods:

30

30 year guarantee - Structural strength of steel and stainless steel components

15

15 year guarantee - Structural elements made of Robinia wood

10

10 year guarantee - Structural failure of high density polyethylene and high pressure laminates components

5

5 year guarantee - Corrosion of stainless steel and hot dip galvanized and powder coated components

**QUALITY
GUARANTEED**

Robinia

The Robinia series comes in natural Robinia wood obtained from European plantations. In the production process, we use only certified materials, and the multi-stage quality-control system ensures that all playground structures which leave our production line meet strict safety standards.

**ROBINIA
WOOD**

Manual craftsmanship

Our experienced carpenters passionately process and finish all wooden elements by hand, and each piece of equipment is built individually. The process is complemented by modern 5D machining centres, which precisely prepare repeatable details. This way, we produce the highest-quality elements, fast order fulfilment, and high production efficiency.

Quality control

All products undergo multi-phase quality control. Our quality specialists operate within a modern laboratory, as well as with devices and measuring equipment, to assess the quality of materials. The wood undergoes a multi-stage treatment. It is seasoned, carefully selected, then polished, to provide the highest-quality finished product. In order to prevent the effect of splitting resulting from stresses in the wood, the beam-ends are additionally cross-fixed by means of bolts.

Robinia - naturally

The acacia wood used in the production of the Robinia series contains many oils which protect the material very well against weather conditions, naturally preserving it against rotting processes and pests. By obtaining wood, we are sure that it comes from European plantations with FSC® certification and other controlled sources, thanks to which we care for the future in the spirit of sustainable development.

Safety standards

In order to maintain the unique and irregular nature of the acacia wood, each product is individually prepared in accordance with the safety standards. In the Robinia series, we have developed unique technical solutions ensuring compliance with the EN 1176 safety standard. The products are certified by the international certifying institution TÜV SÜD. In addition, our production plants undergo periodic control audits by independent certification bodies.

Safe finish

Thanks to the processing of wood by sanding, we smooth its surface, erasing any rough edges or unevenness, so we make the product not only aesthetic but also safe.

Anti-slip HPL plates

Anti-slip HPL plates are a perfect supplement used in various types of steps and small platforms. Thanks to their highest quality, they are resistant to chemical and biological factors, UV rays, and changing weather conditions. The safe anti-slip structure, subdued colours, and natural look, all perfectly harmonise with the wooden style of the series.

High-quality ropes

We use galvanised-steel ropes sheathed in polypropylene braid in the production of climbing elements. The fitted aluminium-rope connections, and safe, calibrated, stainless-steel chains, ensure the reliability of solutions and safety of use.

Durable metal parts

In order to guarantee the highest-quality and long-term use of the Robinia series, we have supplemented it with bars, slides, and other construction elements in stainless steel and hot-dip galvanised steel.

Quick and easy installation

Before shipment, all products undergo preliminary assembly in our factory to prevent jams. We have developed a special connection system, consisting of appropriate undercutting, specialised fastening, and machining holes in key places. Thanks to the clear instructions and the individual marking of the components, it is possible to install quickly and easily, without specialist knowledge and tools.

Packing and transportation

All elements are manufactured in such a way that it is possible to transport both by road (by bus, or semi-trailer), or by sea or air. The appropriate packing of the elements optimises space and transport costs, and facilitates convenient unloading without the need for cranes or specialist equipment.

About series

The ROBINIA series is an inexhaustible source of inspiration for play for younger and older children. The variety of educational and sensory panels, as well as moving elements, stimulate in children great interest and joy.

The environmentally friendly, wooden devices in the ROBINIA series stimulate the comprehensive physical development of a child and allow a large group of children to play at the same time. Thanks to this, the child learns to establish relationships with peers, and cooperate in a group.

Over 150 playground-equipment, sports, and small-architecture products fit perfectly into both the natural landscape and modern architecture.

wooden

The WOODEN series is an endless source of inspiration for both younger and older children how to have fun.

Various educational and sensory panels, coupled with moving elements, will bring children lots of joy and draw a lot of interest. The environmentally friendly wooden equipment from the WOODEN series stimulates the child's comprehensive physical development and also allows a large group of kids to play together at the same time. Thanks to this, child learns how to establish relationships with their fellows and how to work as part of a team.

Find out more on www.vinci-play.com/en/playground-equipment/wooden

solo

The SOLO Series is a paradise for preschoolers, which is ruled by sand, water, sound and movement.

Free fun develops natural creativity of the child, encourages to do experiments and triggers the desire to cooperate with other children. The richness of colours, manual and sound elements, along with educational panels: all these elements comprehensively stimulate the senses and the intellectual development of child.

Find out more on www.vinci-play.com/en/playground-equipment/solo

minisweet

The MINISWEET Series consists of playground equipment designed for the youngest children and preschoolers.

Friendly houses, tunnels and slides are an ideal place to have fun together. This is also where the child learns the principles of functioning in a group while perfecting its language skills. MINISWEET devices encourage children to exercise and support the development of key mobility aptitudes. They allow every toddler to enjoy joyful and carefree fun.

Find out more on www.vinci-play.com/en/playground-equipment/minisweet

climbo

The CLIMBOO Series comprises equipment that develops the fitness and coordination of older children, increasing their faith in their own abilities.

Various climbing ladders and walls with a varying level of difficulty strengthen the muscles and teach the child to concentrate and maintain balance. The CLIMBOO Series is the perfect place to organise competitive games where exciting physical challenges are coupled with maximum safety.

Find out more on www.vinci-play.com/en/playground-equipment/climboo

steel+

The STEEL+ Series comprises modern tower structures with many features that will delight both younger and older children.

Colourful towers enriched with musical elements are just the perfect place to have some fun with fellow companions and are also a great spot for relaxation. A vast variety of devices with educational elements facilitate the integration of children of different fitness levels.

Find out more on www.vinci-play.com/en/playground-equipment/steel-048

castillo

The Castillo series consists of high towers and classic multi-functional sets, with themes harking back to fairy tales and sagas about castles, knights, princesses, and dragons.

Towers reaching up to 9 m, bridges, rope elements, and stainless-steel tube slides, stimulate joyful play for children of all ages. Multifunctional tower sets are made of the highest-quality materials.

Find out more on www.vinci-play.com/en/playground-equipment/castillo

steel

The STEEL Series consists of classic structures that offer unlimited fun for older children.

The sets of equipment from this series can be perfectly adapted to the needs of children and the available space. Rows of towers connected by various attractive movable elements make for a great training ground for motor coordination. They allow a large group of children to play together at the same time, which helps to establish relationships and also teaches teamwork as well as healthy competition.

Find out more on www.vinci-play.com/en/playground-equipment/steel

crooc

The CROOC Series is all about beautiful, unique designs, vibrant colours and multi-tower playground sets that allow large group to have fun together.

Fairytale houses encourage children to engage in role-playing activities with their fellows. Element merging platforms, ladders, climbing walls and slides of different difficulty levels comprehensively stimulate the proper motor development of each child. The CROOC Series guarantees that the child's energy is channeled effectively.

Find out more on www.vinci-play.com/en/playground-equipment/crooc

swing

The SWING Series includes classic equipment beloved by younger and older children.

Colourful single swings, see-saw swings, multi-swings with bird's nest seats and weight-balanced multi-swings offer a pleasant thrill for children and encourage them to play with their friends. Rhythmic swing movement is an effective body balancing exercise that has a positive effect on the development of the muscular and nervous system.

Find out more on www.vinci-play.com/en/playground-equipment/swing

spring

The SPRING Series equals pure energy on springs. It satisfies the child's natural need for unrestrained and carefree swinging.

Colourful vehicles and happy animals encourage kids to jump energetically and sway in the rhythm of body movements. The spring riders, which are so beloved by children, allow for joyful fun which also carries great benefits for kids' development.

Find out more on www.vinci-play.com/en/playground-equipment/spring

hoop

The HOOP Series consists of roundabouts and spinners which drive the world of laughing children.

Spinning is an important activity for the child's development as it promotes the maturation of the nervous system, stimulates the sense of balance, strengthens the muscles and the skeletal system. At the same time it is a source of exciting sensations. For an older child, it is often a favourite place of crazy fun with friends. Colourful carousels encourage both younger and older children to have fun together.

Find out more on www.vinci-play.com/en/playground-equipment/hoop

nettix

The NETTIX Series comprises modern equipment in the form of ladders and rope crossings.

Rope climbing stimulates the sense of balance, strengthens the muscles and improves the child's dexterity. It also encourages children to compete with each other. The NETTIX Series is a creative adventure among ropes, where the boundaries are set only by the children's imagination.

Find out more on www.vinci-play.com/en/playground-equipment/nettix

topicco

The TOPICCO Series consists of generously-sized colourful vehicles which have been designed with attention to detail.

It includes a ship, a fire truck, a lorry and a construction roller. These vehicles release the child's natural tendency to play joyfully in the "adult" world and to engage in role-playing, which makes for a great training in teamwork skills. The TOPICCO Series offers a number of moving parts and educational panels that stimulate motor skills and intellectual development of young children.

Find out more on www.vinci-play.com/en/playground-equipment/topicco

- park -

The PARK Series is a necessary complement to a kid-friendly playground.

Comfortable benches and tables, colourful litter bins, information boards and fences – all these elements ensure comfortable relaxation for children, their parents and caregivers. The modern and aesthetically pleasing design of street furniture harmoniously blends in with the playground equipment.

Find out more on www.vinci-play.com/en/playground-equipment/park

fitness

Fitness series created to keep you fit.

Galvanized and powder-coated steel available in several color options or stainless steel in AISI 304 and AISI 316 will allow you to create a professional outdoor gym.

Find out more on www.vinci-play.com/en/playground-equipment/fitness

workout

Steel structures with many bars and elements created for training with the weight of your own body.

Modern design, durable materials and color options, perfect for creating a modern sports ground.

Find out more on www.vinci-play.com/en/playground-equipment/workout

sport

The SPORT Series comprises football and hockey goals, basketball hoops and trampolines which all encourage children to take on sport challenges among their fellows.

Jumping on a trampoline brings a lot of joy for every child, but it is also an effective exercise of balance, endurance and movement coordination. The equipment from the SPORT Series integrates kids while releasing the spirit of sport competition.
